## Introduction

This document was prepared by the Bonneville Metropolitan Planning Organization (BMPO) in cooperation with the Cities of Idaho Falls, Ammon, Iona and Ucon and Bonneville County, Idaho Transportation Department (ITD) and Targhee Regional Public Transportation Authority (TRPTA).

The Unified Planning Work Program (UPWP) for transportation planning in the Idaho Falls metropolitan planning area is the basis for documentation of tasks to be accomplished during the Fiscal Year 2018 (October 1, 2017 - September 30, 2018). The UPWP represents a cooperative effort between the BMPO, TRPTA and ITD as defined by the following items:

1. Identify transportation and transportation related planning as described in the "Fixing America's Surface Transportation" or "FAST Act", as defined in 23 CFR 450 and 500 and 49 CFR 613, within the next one-year period, including the planning activities funded with PL funds from the Federal Highway Administration (FHWA).
2. Identify transportation and transportation related planning as described in the "Fixing America's Surface Transportation" or "FAST Act", as defined in 23 CFR 450 and 500 and 49 CFR 613, within the next one-year period, including the planning activities funded with funds from the Federal Transit Administration (FTA).
3. Describe and propose work activities and assignments.

The urban transportation planning process includes the development of a Long Range Transportation Plan, transportation modeling via the use of the TransCAD computer software program, development of the metropolitan Transportation Improvement Program (TIP) and other planning and project development activities deemed necessary by BMPO and ITD staff to assist in addressing transportation problems and issues in the planning area.

Pointed out under responsibilities as defined by the Articles of Association, the BMPO Policy Board, through its Technical Advisory and public input, has the primary responsibility for coordinating the local transportation planning process. The City of Idaho Falls Planning Director and the BMPO Director are responsible for the general administration of the BMPO. The ITD has a dual role of assuring that the planning process conforms to State and Federal standards and participation with the various BMPO committees.

## BMPO Work Program Fiscal Year 2018

BMPO receives funding from various Federal, State and local sources. The majority of funds received by BMPO are FHWA planning (PL) and FTA 5303 funds which require matching dollars from local entities in the metropolitan area and are allocated annually. Other Federal, State, and local funds are available and can be accessed for transportation planning activities by BMPO. However, funding from other Federal or State programs is not allocated or applied for annually and would vary from year to year. Additional local contributions also vary from year to year and are based on needs. Other local or public agencies may request BMPO to perform certain duties that are not directly linked to transportation planning activities but which BMPO is capable of performing. These funds would also vary annually and may be set up on a contractual basis with the local or public agency. Work programmed to be performed for the City of Idaho Falls outside the scope of BMPO's normal transportation planning activities is charged directly to the City's budget without reimbursement.

Federal funds require matching dollars from the local entities. The ratio provided by the Federal program and the ratio used by the local entities to match the program is identified as follows:

- C 92.66% provided by FHWA PL/FTA 5303 funds allocated in the Consolidated Planning Grant (CPG) and 7.34% provided by local match for allocations distributed by FHWA/FTA for FY 2017 through FY 2018

After the amount of required local match is determined, \$2,250 is deducted from the amount to account for ITD and TRPTA contributions.
